Subodh Chaudhari

Cybersecurity Enthusiast | Network Security & Vulnerability Analysis | SOC Analyst
+91 9673039647 | subodh.h.chaudhari@gmail.com | linkedin.com | Portfolio | Pune, India

CAREER OBJECTIVE :

Recent graduate in Information Technology Engineering with a specialization in Data Science and hands-on training in Cybersecurity. Completed a 15-week Tata Strive Cyber Security Analyst Training program with exposure to network security, threat analysis, and incident response. Seeking an entry-level role in cybersecurity to apply my knowledge in securing IT infrastructure, monitoring threats, and contributing to organizational security posture.

TECHNICAL SKILLS:

- **Security Tools:** Metasploit, Burp Suite, Nmap, Nessus, Wireshark, Nmap, Zphisher
- **Frameworks & Methodologies:** MITRE ATT&CK, Cyber Kill Chain, OWASP Top 10
- **Programming & Scripting:** Python (Scripting, Data Analysis), Bash, SQL
- **Operating Systems:** Linux/Unix, Windows
- **Networking:** TCP/IP, Firewalls, VPN, Wireshark, Packet Tracing
- **Other Tools:** Tableau, Power BI, Office 365

Experience & Training :

Tata Strive | Cyber Security Analyst Training (15 Weeks) | Jun 2025 – Sep 2025

- Gained practical knowledge of cybersecurity fundamentals, including network defense, endpoint security, and malware analysis.
- Hands-on exposure to tools for threat detection and monitoring.
- Conducted mock incident response drills, vulnerability scanning, and penetration testing exercises.
- Worked on case studies simulating real-world cyber-attack scenarios to strengthen defensive strategies.

Pantech Solutions | Internships

Data Analytics Intern | Jan 2025 – Feb 2025
- Analyzed large datasets, built dashboards in Tableau & Power BI, and derived insights for decision-making.

Machine Learning Intern | Feb 2025 – Mar 2025
- Developed ML models for predictive analytics and automation, including classification and recommendation systems.

PROJECTS :

- **Cybersecurity Labs & Exercises**
  - Performed Nmap scans to identify open ports and services.
  - Used Nessus for vulnerability assessment and reporting.
  - Intercepted HTTP traffic using Burp Suite for security testing.
  - Exploited test machines in Metasploitable 2 using Metasploit.
  - Analyzed packet captures with Wireshark.
- **Cybersecurity Mini Projects (from training):**
  - Performed vulnerability assessment using Nessus.
  - Simulated phishing attack scenarios for awareness training.

- o   Implemented firewall rules and security policies on Linux.
- **ML Projects:** Handwritten Digit Recognition (SVM), Movie Recommendation System (SVD).
- **Tableau Project:** Automobile sales analysis dashboard.

EDUCATIONAL QUALIFICATIONS:

- **RMD Sinhgad School of Engineering** | Bachelor of Engineering (Information Technology 2020-2024, Ist Class, CGPA 7.60) with Honors Specialization in Data Science
- **Vijaymala Junior College Of Science** | HSC (2019 – 2020, Ist Class)
- **Rmd English Medium School** | SCC (2017 – 2018, Ist Class)

Core Strengths:

- Strong analytical and problem-solving skills
- Quick learner with adaptability in dynamic environments
- Effective team collaboration and time management
- Positive and pragmatic attitude
